Subject: Please reverse the cease and desists order on Uber

South Carolina Public Service commission,

I write today to express my concerns and disappointment towards the recent decision to order Uber to cease and desist operations. When I read the headline in the Post and Courier this morning, I thought I must have misinterpreted it. Isn't South Carolina a Right to Work State? Isn't forcing Uber to shut down operations counterintuitive of that?

Uber provides the best public transportation service I have encountered in Charleston, SC. I use the CARTA system to get to work, it is not as reliable. Taxi cabs are even less reliable, both in terms of arrival time and fees. Uber provides an extremely useful public service, it keeps drunk drivers off the road. Keeping drunk drivers off the road should be a priority in South Carolina. Please reverse this decision before more lives are lost to drunk drivers.

Sincerely,

Katie Monk

Subject: It is freedom : We need Uber in Charleston

Hi PSC,

I am Nicolas Sprotti and live in Mt Pleasant SC.

I had words the South Carolina Public Service Commission (PSC) issued an order yesterday directing Uber to cease and desist operations.

I moved from France to USA 10 years ago because I am a capitalist, I believe in freedom and bottom line free market. I am now a proud US citizen for 2 years.

Let's get that straight. I've ride Uber in Paris (you know the capital of the socialist country...) over 100 times. Despite strong lobbying from the Taxi industry in France Uber is still up and growing. Actually the French government is working hand in hand with Uber and the taxi industry so the end user can have the freedom to choose with whoever they want to ride with.

I could not imagine a second Uber being shut down in one of the most conservative state in USA aka South Carolina.

I want to be able to choose with who I ride in CHARLESTON. It is called FREEDOM. I want to ride with UBER.

Best Regards,

Nicolas Sprotti

Subject: SC needs Uber

To who it may concern,

I am a Charleston resident and have been extremely happy with the service Uber has provided since coming into town. The cab companies in Charleston do a very poor job in every respect. Outside of greentaxi, who are good operators, the majority of the other cabs are dirty, the drivers are rude and they charge arbitrary rates. Uber drivers are held accountable for their behavior by their review system and I have had nothing but pleasurable experiences with uber. Not only are the cabs bad in Charleston for the reasons listed above, but they are not reliable and will leave you stranded or not show up at all to booked times.

I know first hand that Uber has provided a much needed service in Charleston and has cut down on drunk driving. Please don't take away the convenience and public service that is Uber. SC truly needs Uber.

Thank you for your consideration and time.

All the best,
Frank Kenan
Charleston, SC
